## **DETAILED ACTION**

## Reasons for Allowance

- 1. The following is an examiner's statement of reasons for allowance:
  - a. Claims 1, 3, 6, 8, 10, 12, 14, 16, 18, 20, 22 and 24 are allowable over the Prior Art of Record because it fails to teach or suggest an alignment laser projection system comprising a first side holding plate wherein an upper hole and a center hole are formed such that the central axis of each hole is the same as the central axis line in the length direction of the permeation window, and a pair of bottom holes are formed such that the central axis of each hole is in parallel with and level with the axis line in the length direction of the permeation window, and the two axes of the holes are symmetrical about the axis line of the permeation window, and the first side surface holding plate is coupled to one side surface of the housing, and a second side surface holding plate where holes corresponding the upper hole and bottom holes of the first side surface holding plates are formed respectively and the second side surface holding plate is coupled to the other side of the housing in combination with the remaining limitations of the claims.
  - b. Claims 2, 4, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23 and 25 are allowable over the Prior Art of Record because it fails to teach or suggest an alignment laser projection system comprising a first side holding plate wherein an upper hole is formed such that the central

-

axis of the hole is the same as the central axis line in the length direction of the permeation window, and a pair of bottom holes are formed in the vertical direction on one location selected between two locations where the central axis of a lower bottom hole of the pair is in parallel with and level with the center of the axis line in the length direction of the permeation window, and the first side surface holding plate is coupled to one side surface of the housing, and a second side surface holding plate where holes corresponding the upper hole and bottom holes of the first side surface holding plates are formed respectively and the second side surface holding plate is coupled to the other side of the housing in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yaritza Guadalupe whose telephone number is (571)272 -2244. The examiner can normally be reached on 9:00 AM - 6:30 PM.

Application/Control Number: 10/701,980
